attempt of the snemy to scale it was repulsed, and the gallant Harker looked with pride upon his lines, standing or lying just, where they were when the fight began. But our treops are no longer satisfied with the defensive. Gen. Turchin, at the head of his brigade, charged into the rebel lines and cut his way out again, bringing with him three hundred prisonners. Other portions of this brave band followed Turchin's axample, until the legions of the onemy were inlyidriven back to the ground they occupied previous to commencing the last fight. Thus did twelve or fifteen thousand men, animated by herric impulses and inspired by worthy leaders, save from destruction the Army of the Causberland. Let the nation bence them as they decorred it!

At hight Gen. Thomas fell back to Rossville, four miles from/Chattanoogs. Around and in the city the army lies to might. KILLED:

In all these severe fights our loss was comparatively and and forty, and brought away sixty prisoners. In all these severe fights our loss was comparatively small.

THE CAVALAY FIGHT OF SUNDAY.

(Correspondence Palladelphia Press.)

Few have any idea of the brilliance of Sunday's cavalry fight. Their batteries were advantageoraty powed on high hills, amid dense thickets. How our cavalry managed to drive them so heatily and leadily, is still a great wonder to me. There is no doubt they were uterly unprepared for each an impetations caset. Two or three charges they made were miserable failures, and their officers were beard cavalny them so undly for note failing quickly into line. About two milies on the other side of town is a large-blick house, almost new. In this the rubel sharpshooters were concealed and annoyed our new acceedingly. Buford soon had a battery unlimbered, and pointed at the house, which was note pierced by round shot and theil. In the cellar, which was only i wo or three loss under ground, a neighboring family had taken refuge. A shell came tearing through the beliding, knocked a brick on the new shells which similar the provided the house was not bandaged, and the news, which was not be sundered to the house of the same shell, it as the wounded lady this evening. Fire was discovered about eight o'clock on the evening of the 21d, soming out of the after hatchway. She was 1; ong at the Government warf, her hold being filled with hay. The fiames spread with frightful rapidity, so that in a very few moments she was poriectly wrapped in a sheet of dame. The boats even and passengers barely eccepted, wint the clerk of the boat menaged by extraordinary exertions to save the books and papers, but none of his private wardrobe.

Soon like beast begins to drift down stream with her living treight, whose almost human groams of agony were heart-cending. Just below lay the Lancaster, No. 4, and Ohio Belle, the latter leaded with ammunition and ordennee stores of every kind. While passing great anxiety was manifested, for fear the fames would communicate to them. She passed however, without firing any of them. Four persons are reported lost on her, risc. The doctor, two juards and a negro, names maknown. The doctor is reported to hall from 8t. Louis. So great was the light, that passengers on the Emman, No. 3, twenty fremlies up stream, saw it distinctly. The fire was undoubtedly the work of an incenditors.

To this end her commercial regulations and tarriffs of tolls are always framed; and so successful has this policy worked, that during the few years past, the West has not only paid the total interest on the cost of the canals with which she is concerned, but a sum sufficient to defray the ordinary expenses of the State Gevernment, besides large annual additions to the Sinking Fund for the final extinguishment of all that she owes. The regulations which compel that large tribute are both unfair and oppressive—framed in palpable disregard of State comity and in flagrant violation of commercial justice. But the lajustice and oppression have probably reached their acme. The free navigation of the St. Lawrence, secured by the Receptocity Treaty, forbids those who control New York policy to go further in their wrong. The people are evidently realizing the importance of are evidently realizing the importance of put-ting down the home robels through the bal-lot box next month. They see very clearly, and are fully convinced, that Vallandigham is as dangerous an enemy to the country, and as fully stained with the crime of treason as Jeff. Davis, the only difference being that one is a secret plotter, while the other is in open war against the Government.

As a specimen of the radical change in anti-layery scattments now working in Maryland, we give the following extract from a setter to Hon. Henry W. Hoffman of Baltimore, from Hos. Henry W. homans of Damberland, a brother of the notorious commander of the pirate Alabama. It is under date of Septem-
